Career Profile

Professional Scrum Product Owner™ I (PSPO I) certified and Azure-certified Business Analyst with a strong focus on delivering value in the banking and finance sector. Proven track record in compliance (KYC/AML), credit analysis, risk management, and process improvement, with expertise in managing the IT project lifecycle autonomously. Recognized for critical thinking, attention to detail, and a commitment to enhancing customer experiences. Skilled in defining and communicating product vision, managing and refining product backlogs, driving stakeholder engagement, and supporting forecasting and release planning. Adept at leveraging data analytics and Agile practices to deliver high-value, compliant, and customer-centric solutions.

Employment

02/2024 – Current

ANZ Banking Group
Business and Process Analyst- Australia Retail & Commercial
Melbourne, Australia

- Acted as a **Product Owner proxy**, translating business objectives into Product Backlog items, user stories, and acceptance criteria to guide development teams.
- Defined and prioritized backlog items across multiple initiatives within Project Accord, ensuring alignment with business goals and regulatory compliance (KYC/AML, ASIC, APRA).
- Spearheaded a major compliance initiative (Audit Issue 20), delivering regulatory adherence while safeguarding the business from potential fines and penalties.
- Managed a cross-functional squad to implement a **Centralised Product Offboarding capability**, creating an end-to-end KYC journey that reduced operational costs by 30% and streamlined workflows.
- Partnered with stakeholders to shape the **product vision** and roadmap for compliance journeys, ensuring transparency of priorities and delivery value.
- Evaluated and recommended technology solutions to automate and optimize processes, enhancing delivery efficiency.
- Facilitated adoption of new processes and tools through training, workshops, and continuous stakeholder engagement.
- Conducted recurring reviews and inspections to validate process outcomes, maintaining alignment with the broader product vision.

03/2023 – 02/2024

ANZ Banking Group
Process and Change Specialist- Enterprise Finance
Melbourne, Australia

- Lead and embedded change initiatives, supporting the Group Financial Controller.
- Spearheaded multiple Process Improvement Initiatives for Statutory and Regulatory Reporting, aligning with Financial Control Optimization strategies.
- Analyzed extensive datasets, executed problem-solving strategies, and re-engineered key Financial Control activities.
- Collaborated with Financial Control and Finance Systems Data & Innovation to automate manual processes, ensuring efficiency.
- Acted as a central figure, liaising with key stakeholders, and managing expectations to drive successful change delivery.
- Empowered stakeholders by bridging data gaps and facilitating workshops utilizing Banking downstream systems such as EDW, Teradata, Finance Data Hub, QlikSense, SQL, OSX and PSGL by running workshops sessions.
